iPad - Connecting to TWIN

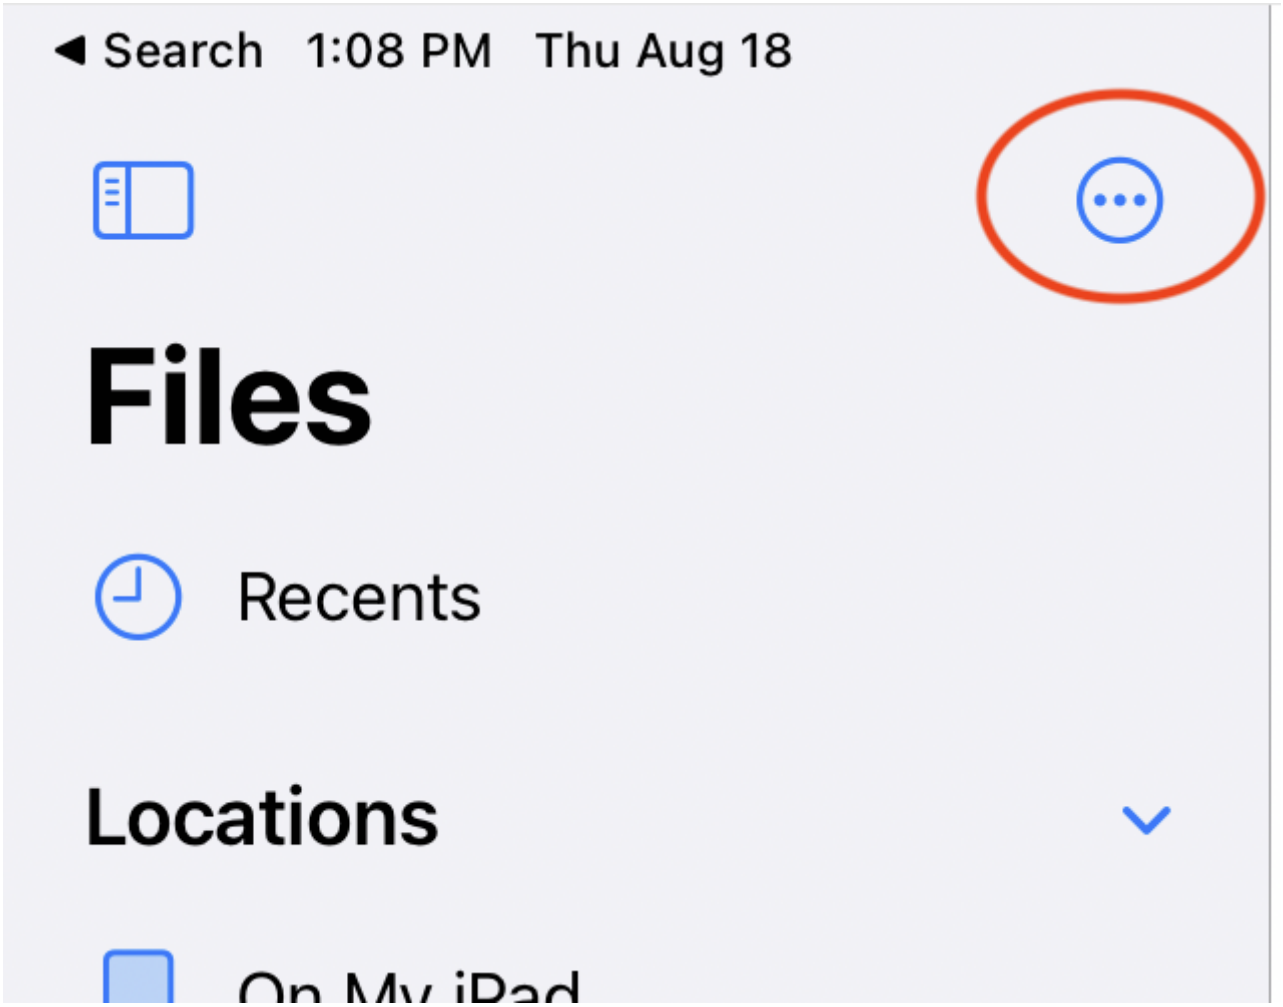

This guide covers how to connect to TWIN with an iPad.

If your iPad is not in the office, you must connect to the VPN first.

- Click on the Files app

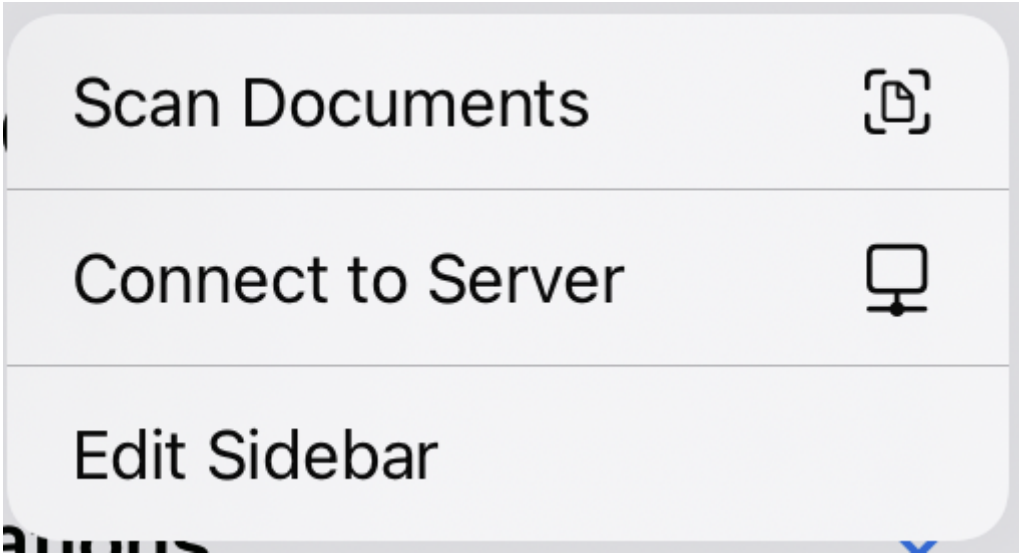

- Click on the three dots circled here:

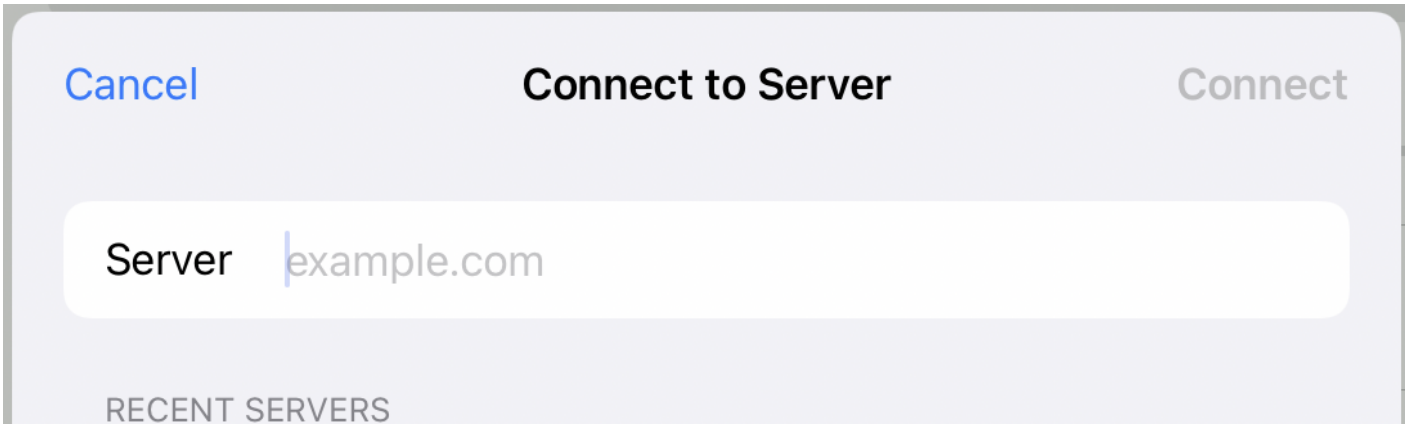

(You might have to search for the Files app.)

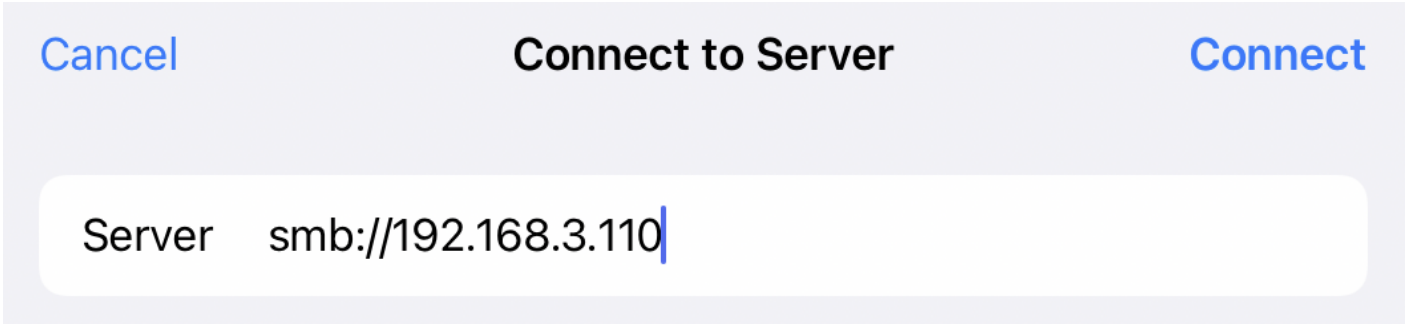

- Connect to Server

- Here is what you're see, please fill in `smb://192.168.3.110`

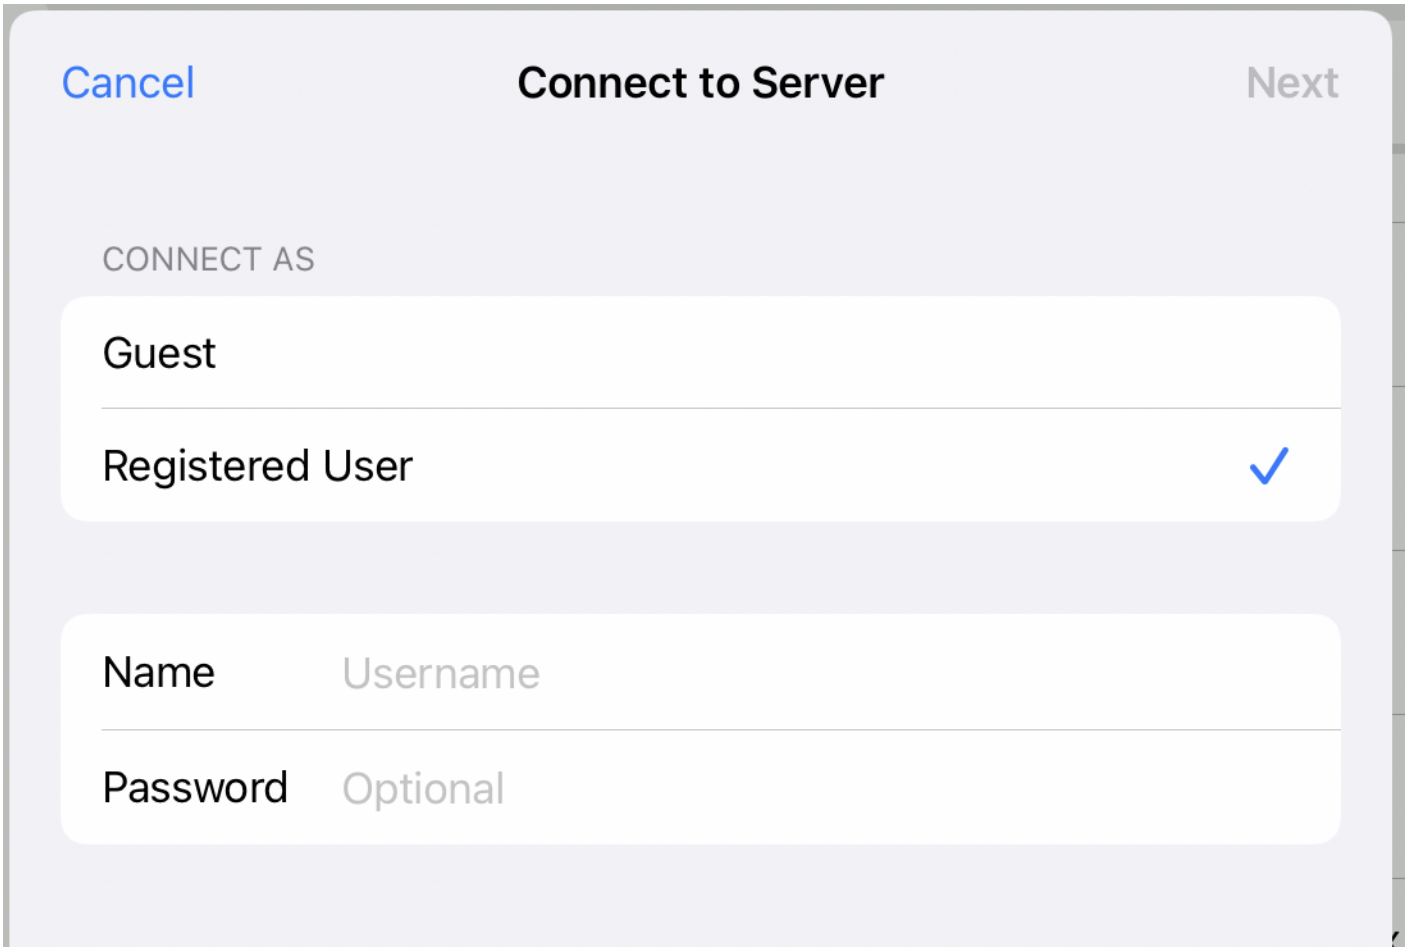

- Should look like this:

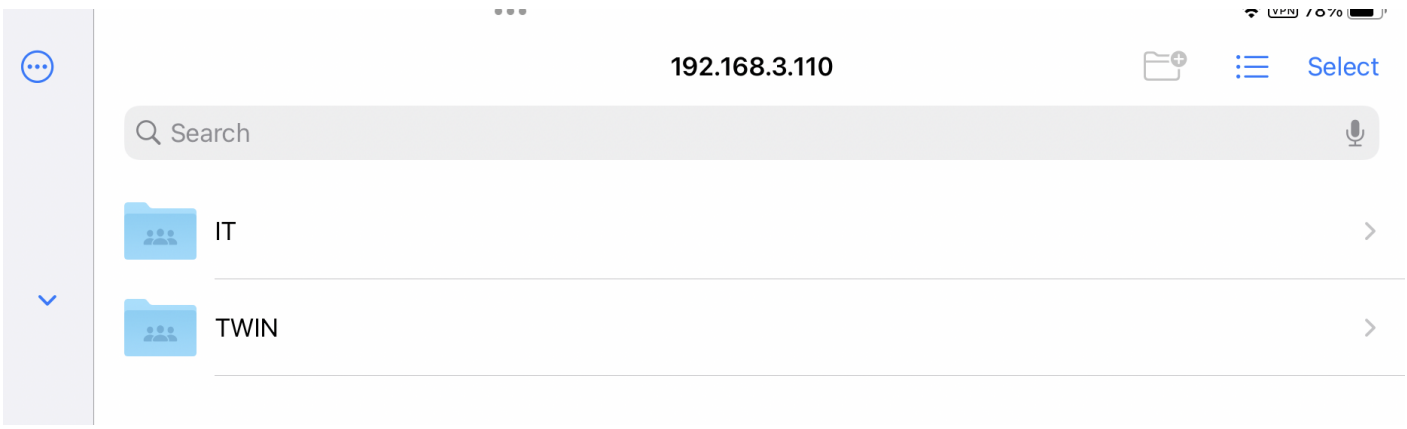

Now click `Connect`.

- Fill in Username and Password

Neither is optional, despite what it says.

- This is a successful connection:
