Wishthis typical flow

Bob makes a wish

1. **Log in**
   Type your Email and Password, then click **Login**.
2. **Open your lists**
   In the menu, click **Wishlists**, then **My lists**.
3. **Pick the right list**
   Open the **Wishlist** drop-down and choose the list.
4. **Start a new wish**
   Click **Add a wish**.
5. **Paste the link**
   Paste the **Link to the product**. wishthis fills in the rest. Check the Title and Priority.
6. **Save it**
   Click **Add**. You see: "Wish successfully created."

Later

Alice gives it to him

1. **Log in**
   Type your Email and Password, then click **Login**.
2. **Open remembered lists**
   In the menu, click **Wishlists**, then **Remembered lists**.
3. **Open Bob's list**
   Under the name **Bob**, click his list.
4. **Look at a wish**
   Find one to give, then click **Details**.
5. **Claim it**
   Click **Fulfil wish**. You see: "Thank you!"
6. **Buy it**
   Click **Visit** to open the store, then buy it there.

What happens next

✓ **Bob**
Bob still sees the wish on his own list. The surprise is kept.

✓ **Everyone else**
The wish is gone from Bob's list for everyone else, so nobody buys it twice.

! **Good to know**
